

Android Active Sync Set Up 2013

Android Active Sync: Set up 2013

1) Click on Settings

2) Select Accounts & Sync

Depending on the OS version that you are running you may need to select Corporate Sync instead of Accounts and Sync.

3) Select Add Account

4) Select Exchange Active Sync

5) Click Manual setup

6) Enter in your account information

Email Address: **Your full email address**

Server Address: **mail.sh6.cloudhostsite.com**

Domain: **Leave blank**

Username: **Your full email address**

Password: **Your Exchange mailbox Password**

(Make sure that "This server requires an encrypted SSL connection" is checked.)

7) Click Next

Set the Exchange ActiveSync Settings to your liking.

8) Click Next

Name the Account then select **Finish Setup**.

(Note* Depending on the setup may be different than this tutorial. Please consult your user manual for instructions on Exchange setup.)
