Microsoft Hosted Exchange

Microsoft Hosted Exchange

Webhosting.net provides a comprehensive Hosted Exchange solution that combines the comprehensive features of Exchange 2010 with superior customer support at a cost that is a fraction of trying to manage servers, licenses and maintenance of the Exchange infrastructure in-house.

Hosted Exchange Highlights

Money Back Guarantee

Our Single Sign-on feature allows users to sign-on using one login and password to access programs such as: Microsoft Exchange, Microsoft SharePoint and Lync.

Microsoft Lync

Microsoft Lync is a unified communications platform that is enterprise-ready. Lync connects people everywhere, on Windows 8 and other operating systems including mobile devices, as part of their everyday productivity experience.

Microsoft Sharepoint

Add the efficiency of SharePoint to your company easily with our simple 5 user package. Add on as many as you need without any unnecessary per user charges.

FREE* Cloud Based Migration

For a limited time, we are offering our cloud-based migration solution for free. Help your company move from existing to new messaging systems seamlessly while lowering your bottom line.

Free McAfee Anti-Spam

Stop email attacks with real-time monitoring and analysis of incoming traffic, while concealing critical messaging gateways and shielding email servers.

Outlook Features

Single Sign-On

Our Single Sign-on feature allows users to sign-on using one login and password to access programs.

Anywhere Access

Get virtually anywhere access to email, voice mail, calendars, and contacts from a variety of clients and devices.

Disaster Recovery

Deleted item retention and mailbox recovery. Daily backup. Business continuity and disaster recovery. Regular security assessments. Continuous intrusion monitoring and detection.

Virus/Spam Filtering

WebHosting.net's perimeter spam and virus filtering service. Premium McAfee protection available.

Full protocol support

MAPI, IMAP, POP, OWA

Email Archiving

Reduce your email storage and backup times while keeping all your important data in one place with email archiving.

24/7/365 Support

24/7/365 Email support and US-based live Toll-free telephone Tier 1 support for IT administrators.

Public Folders

Share files in the Public folders with other people using the same computer and with people using other computers on your network.

Compatibility

Microsoft Office Outlook 2010, Outlook 2003 for PCs. Microsoft Entourage for Macintosh users. Outlook Web Access (OWA) with Internet Explorer® 6.0 or later or Firefox 3.0 or later.

Sync All Your Devices

Synchronize your Inbox, Calendar, and other items with Microsoft Exchange Server mailboxes.

100% Scheduled Uptime

100% scheduled uptime / 100% SLA

Support Resources

How-to features guides; product video tutorials; online Knowledge Base articles.

Cloud Based Migration Overview

For a limited time, we are offering a FREE*, complete cloud-based migration solution that helps companies move from existing to new messaging systems seamlessly. With no hardware or software to install, the patent pending technology is a solution designed to meet the needs of individuals, IT administrators, consultants, system integrators and service providers interested in migrating mailboxes. Our migration services are trusted in over 50 countries by global Fortune 500 organizations, governments, healthcare providers, and more.

Any System

Migrate mailboxes between Microsoft Exchange, Office 365, Novell GroupWise, Google Apps/Gmail, VMware Zimbra, IBM Lotus Notes, IMAP or POP systems.

High Fidelity

We migrate emails but also calendars, contacts, tasks and more depending on the messaging system. We migrate hundreds of properties to provide the highest fidelity.

Anytime

We perform migrations 24 hours a day, 7 days a week worldwide. Our global migration farm is used by single individuals to multi-nationals.

Cost Effective

Lower your total cost of migration. We offer a cost effective and efficient migration solution for all businesses.

Free World-Class Email Security from McAfee

As a cloud-based service, McAfee SaaS Email Protection and Continuity delivers access to world-class email security with no hardware or software to buy, no backups to run, and no maintenance to perform - saving money and freeing up resources to focus on more strategic tasks.

✓ Inbound Filtering

Protects against the world's latest threats, defeating zero-hour attacks, and blocking phishing, advanced malware, and over 99% of spam well before they reach your network.

✓ Outage Protection

Remain productive during email server outages with continuous email storage, access, and use.

✓ Outbound Protection

Identify and handle malware, inappropriate emails, unauthorized content, and company-private information before it leaves the network.

✓ Easy Administration

Set policies and quarantine parameters, configure routing, monitor activity, query for email disposition, and more.

✓ Focus on your core business

✓ Get email protection from the security experts

✓ Block threats before they reach your network

✓ Filter emails in real time with a proxy-based approach

✓ Keep users from clicking on malicious links within emails

✓ Use graymail filtering to further reduce unwanted email

✓ Automatically filter outbound emails to protect you and your recipients
